## ABOUT US

Touchstone Infotech LLP is a one-stop technology hub that provides a top-notch solution that meets businesses' digital needs. We offer a wide range of innovative digital solutions to meet the business needs of our clients. Touchstone Infotech started in 2013 as a Marketing and IT Service in the USA, Canada, and Australia. In 2015, the company started with Local SEO services in India, with an office in Delhi, having employees in Bengaluru and Indore.

Today, businesses can only reach their full potentials and outrun close competitors through the valuable tools provided by innovative digital transformation. Digital technologies are currently changing the face of business. Digital technology helps to upgrade core business aspects, maximize the internet technology for smart marketing, and create automated solutions for different departments within the business, and lots more. With our effective strategy, our clients are equipped to make better decisions to achieve comprehensive growth and development that positions their company amongst the top-performing businesses in the sector.

We are committed to providing targeted long and short-term results. We help clients transform their businesses by leveraging the latest digital technologies. We help clients maximize digital solutions to create a more efficient business environment, faster time-to-market, and better customer satisfaction, thereby outpacing competitions. If you are looking for a smooth transformation and effective performance of your business with digital technology, Touchstone Infotech is your trusted partner to help you achieve your goal.

## Vision

To be a renowned digital technology hub for companies that want to evolve and grow through innovation, digital transformation, technological development, and professional mentoring.

## Mission

To become a digital transformation leader, provide top-notch innovative technology and professional experience for clients, thereby repositioning their business for better performance.

# WHAT WE DO

Touchstone Infotech LLP is a digital agency working smartly to help clients achieve their business goals by creating strategies based on the current trends and ensuring that our clients are satisfied with our services. Our innovative solutions are applicable across all business sectors.

To us, digital transformation is a collection of innovative solutions through the adoption of modern tools and processes leveraged to solve all forms of business challenges and satisfy customers. We fuel the growth of our clients' business operations, replacing old operational methods with optimized strategies that facilitate operational efficiency leading to immediate growth.

Our focus is to integrate digital technology into all business areas, changing how our clients operate their business and deliver top value to their customers. Technology plays a critical role in helping companies and businesses adapt to market changes and evolves to satisfy their customers' needs. We position our clients to challenge the status quo with the latest innovation, maximize various technological platforms, and experience all-around success.

Our team comprises seasoned professionals with industrial experience and proven track record of taking businesses to their full potentials at Touchstone Infotech LLP. They discuss with clients to understand their needs, thereby tailoring strategies that will create an effective solution.

# Take your **BUSINESS** to the **NEXT LEVEL.**

We do not only provide SEO and Internet marketing services but we also offer a wide array of related services such as **SEO friendly web design**, **pay per click**, **affiliate marketing**, **website audits**, **social media optimization**, branding and several others.

# OUR SERVICES

We will provide you complete analytic report of your online presence in an easy to understand format so you can take right decisions after understanding your current online position.

## Business Branding

Smart business branding is critical in today's business landscape to stand out from competitors. The purpose of branding in business is to target the right audience that will benefit most from your services or products. Business branding is about creating a unique identification for your brand. It is how your customers recognize and relate with you. Your business brand constitutes one of the most valuable assets of the business.

As such, through our expert service, clients can have a brand that supports the growth of their business. Creating a strong business brand is more than your business logo; it extends to all aspects of your business, including your marketing and advertising materials. At Touchstone Infotech, we help create the best business branding solution that distinguishes them from others and sets them ahead of their closest competitors.

## Local SEO

Local SEO is a highly effective method to position your business to attract the audience. In simple terms, local SEO is pivotal for your business to stay relevant and ahead of competitors. Local SEO (Search Engine Optimization) is a strategy that helps our client's business to be more visible through local search engines- Google. Local SEO can help to grow your business if you allow our experts to work with you and maximize the platform to benefit your business.

To achieve this goal for clients, we work with clients to perfect their website content, links, and social media pages to rank the brand at the top position during local searches. Visit Touchstone Infotech to learn more about optimizing your local content to rank higher in Google searches.

## WordPress Website Designing

Having a website for your business is a step in the right direction to improve your business's visibility and transform your business through smart digital technology. Through their website, clients can promote their business and attract a teeming audience through the internet. WordPress is a unique platform for building top-notch websites. We provide comprehensive website designing services that give our clients a good head start in business.

Starting from the domain name that includes the keyword to the websites' optimized performance, Touchstone Infotech will design a suitable website for the nature of your business.

## Targeted Lead Generation

Lead generation is beyond getting noticed on the internet or getting visitors to visit your website. It involves collecting their information so you can drive communication and turn prospective customers into loyal customers.

At Touchstone Infotech, we help clients attract better leads and increase conversion rates. We use various platforms such as email marketing, effective landing pages, social media platforms, valuable content, and lots more to help our clients attract and retain prospective customers.

Custom **Web Designing** and better **ROI** to our clients with Digital Marketing Projects.

## Local Business Marketing

We provide local business marketing solutions to clients through our highly-effective local marketing ideas for businesses.

We help clients target potential customers through digital marketing and traditional offline marketing activities. With our experience, clients can effortlessly target your local customers and attract them to your brand through quality products and superior customer satisfaction.

## Virtual Tour Creation

Virtual tour creation is a viable visual marketing tool. At Touchstone Infotech, we create a simple and affordable solution for creating high-resolution virtual tours to attract prospective customers to your brand.

We create 3D virtual showrooms that help you display and showcase your products. Contact Touchstone Infotech and learn more about how we can bring value to your business through virtual tours.

## Business Automation

We help our clients achieve business automation through the digital automation of complex business processes. Business automation leads to business simplicity, increase service quality, and contain costs. As a leading professional in business automation, clients learn to use technology to perform recurring tasks or perform certain operations to manage business activities effectively.

Our business automation services focus on adding value to our clients' business and improving their business efficiency.

# OUR CORE VALUES

## Commitment

We are committed to our clients; we help them achieve sustainable growth by adopting technological solutions for effective business performance.

## Passion

We are passionate about growing smart businesses through our digital technology and experience.

## Creativity

We create strategies that are tailor-made to suit the needs of our specific clients. We understand that business needs differ from each other; thereby, our creative solutions are tuned towards helping the specific client.

## Excellence

We deliver excellence and value to clients by improving their productivity, ease of doing business, and increasing ROI.

## Innovation

We create new strategies to meet the demands of our clients. We understand that the business landscape is dynamic, with new technology tools emerging frequently. Our innovation helps us understand all emerging technology and deliver top insight into clients' technology tools.
